

own your treatment

HIV positive?

Own your treatment

Anti-HIV Drugs?
Combination therapy (HAART)?
NNRTIs?
Protease Inhibitors?
NRTIs?

Own your treatment

Different treatment options are becoming available all the time, and it pays to keep informed about therapies you may be offered.

Own your treatment

The options can be confusing, but it's important that the choices you make are the ones that are right for you.

Own your treatment

Work in partnership with your doctor to explore your treatment options.

**THE FIRST
OF SEVEN ADVERTS**
All information was accurate as of May 2004
